1 The scope of this supplement is not broad enough to address all of the comments made on DEIS. The scope of this supplement should have been broader so that it addressed insufficiencies such as employment figures in Nye county, transportation of High Level Waste and comments which were made, but never responded to on the DEIS. The public needs responses to all it's comments before the Final EIS can be released. This Supplemental DEIS intensifies the fact that the entire DEIS needs to be redone.
